The above pricing is to be used as a guide only for Canterbury installations, **(does not include excavation costs),**

As a site inspection will be required and a formal quote given. – It does however include a PC (best estimate) amount for the stabilized backfill material, (site locations and material costs will vary), and labour – the customer may wish to save some money (\$1000-\$1800) and do this themselves, our installer is happy to advise the customer on the process. – There are no allowances for accommodation included in the above prices should it be required it will be quoted on a case by case basis.

Prices based on customer supplying water – tanker water is available at an extra cost.
