

# Safety Data Sheet – Slime Strike

Revision date; August 2020

## Section 1 – Product Identifier and chemical identity

Product names: **Slime Strike**

Product use: Treatment of moss, algae and lichen

Supplier details: Manufactured and Distributed within NZ by:  
 ALGON NZ,  
 163 Morrin Rd,  
 St Johns,  
 Auckland, 1072.  
 Ph +64 9 529 0523

Distributed within Australia by:  
 Algon Australia Pty Ltd,  
 Reg'd Office Level 11, 80 Mount St,  
 Nth Sydney, NSW 2060"  
 Ph: +61 2 944 97997, Fax: +61 2 944 95664

Emergency contact details (24 hrs) NZ National Poisons Centre - 0800 764 766  
 NSW Poisons Information Centre - 131 126

## Section 2 – Hazard Identification

Hazardous Classification: Classified as hazardous according to the Hazardous Substances and New Organisms Act 1996

GHS Signal Word: DANGER

| HSNO Classification | GHS Classification                      | Hazard Statement   |
|---------------------|---|--|
| 6.1E                | Acute toxicity: Oral - Category 5       | May be harmful if swallowed.   |
| 6.5B                | Skin sensitization - Category 1         | May cause an allergic skin reaction.                                 |
| 6.9B                | STOT Re - Category 2                    | May cause damage to the liver through prolonged or repeated exposure |
| 8.2C                | Skin corrosion - Category 1C            | Causes severe skin burns and eye damage                              |
| 8.3A                | Serious eye damage - Category 1         | Causes serious eye damage.   |
| 9.1A                | Aquatic toxicity (chronic) - Category 1 | Very toxic to aquatic life with long lasting effects.                |
| 9.3C                | Ecotoxic to terrestrial vertebrates     | Harmful to terrestrial vertebrates                                   |

**Precautionary Statements:**

**PREVENTION**

Keep out of reach of children.  
 Read label before use.  
 Do not breathe Vapours  
 Wash hands thoroughly after handling  
 Contaminated work clothing should not be allowed out of the workplace.  
 Avoid release to the environment.  
 Wear protective gloves, clothing, and eye/face protection

**RESPONSE**

If medical advice is needed, have product container or label at hand.  
 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.  
 IF ON SKIN: Wash with plenty of soap and water.  
 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.  
 IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing.  
 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
 Immediately call a POISON CENTER or doctor/physician.  
 If skin irritation, eye irritation or rash occurs: Get medical advice/attention.  
 Wash contaminated clothing before reuse.  
 Collect spillage

**STORAGE**

Store locked up.

**DISPOSAL**

Triple rinse containers and recycle according to local bylaws

**Section 3 – Composition**

| Ingredients                               | CAS #      | Concentration |
|---|------------|---------------|
| Benzalkonium Chloride                     | 68424-85-1 | 1 - 10%       |
| Water and other non-hazardous ingredients | N/A        | to 100%       |

**Section 4 – First Aid**

If you suspect that you have been poisoned or irritated by this product, you should call the Poisons Information Centre on 0800 764 766 (in NZ). Make sure you have this SDS available when you call. First aid measures vary according to routes of exposure.

- Ingestion:** If product is swallowed, rinse out mouth with water. Do not induce vomiting, Do not give anything by mouth to an unconscious person. Call POISON CENTER or doctor/physician
- Eye contact:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. POISON CENTER or doctor/physician
- Skin contact:** Remove contaminated clothing, and wash affected areas with soap and water for several minutes. Seek medical attention if irritation continues.
- Inhalation:** Unlikely route for exposure. Remove victim from exposure, relocate to fresh air. Loosen or remove contaminated / restrictive clothing. Seek medical attention if effects persist.

## Section 5 – Fire Fighting

|  |  |
|--|--|
| <b>Suitable Extinguishing Media:</b>   | Use media to suit local environment such as dry agents, water, foam, water fog.  |
| <b>Unsuitable Extinguishing Media:</b> | None known   |
| <b>Hazards from combustion:</b>        | There is no risk of explosion from this product.<br>May form toxic combustion products during fire such as oxides of carbon, oxides of nitrogen.           |
| <b>Precautions for fire fighters:</b>  | Fire fighters should wear approved self-contained breathing apparatus and protective fire-fighting clothing. Keep away from low positions and stay upwind. |

## Section 6 – Accidental Release

|                                     |  |   |
|-------------------------------------|--|---|
| <b>Protective Equipment:</b>        | Wear protective clothing, triple layer nitrile gloves, and goggles or face protection (see Section 8).<br>Dispose of the absorbed spill in polyethylene containers in accordance with local, State or Federal regulations at an approved waste disposal facility or land fill. |   |
| <b>Environmental precautions:</b>   | Try to contain spill. Prevent spillage from entering drains, sewers and waterways  |   |
| <b>Containment and Cleaning Up:</b> | Large spills   | Affected area can be slippery. Treat area with absorbent material such as sand, earth or vermiculite. Notify local council or emergency services if spillage enters drains. |
|                                     | Small spills   | Use absorbent materials to soak up spill, and dispose of in sealed, labelled containers.  |

## Section 7 – Handling and Storage

|                                       |   |
|---------------------------------------|---|
| <b>Precautions for Safe Handling:</b> | Ensure personal protective gear (Section 8) is worn when handling, keep exposure to a minimum.<br>Wash hands before eating, drinking or smoking. Remove contaminated clothing before entering eating areas. Keep away from any incompatible materials mentioned in Section 10. Keep handling to a minimum.      |
| <b>Conditions for Safe Storage:</b>   | Store in a cool dry place away from direct sunlight or heat. Keep away from any incompatible materials mentioned in Section 10. Keep in original containers with lids firmly sealed and check for spills. Avoid contact with strong acids, metal hydroxides, reactive metals (tin, zinc, magnesium, aluminium). |

## Section 8 – Exposure Controls

|   |   |   |                                 |
|---|---|---|---------------------------------|
| <b>Exposure Standards</b>                   | WES-TWA ( mg/m3 )   | - | no exposure standard allocated. |
| <b>Engineering Controls:</b>                | Use only in well ventilated area. Have eye wash station within close proximity. |   |                                 |
| <b>Personal Protective Equipment (PPE):</b> | Wear gloves, safety glasses, protective boots and overalls.                     |   |                                 |
| <b>Eye and Face Protection:</b>             | Wear safety glasses with side shields or full face mask.                        |   |                                 |
| <b>Skin Protection:</b>                     | Wear protective clothing and gloves to avoid unnecessary contact.               |   |                                 |
| <b>Respiratory Protection:</b>              | It is usually safe to use this product without a respirator.                    |   |                                 |

## Section 9 – Physical and Chemical Properties

|                          |                            |                                   |                                      |
|--------------------------|----------------------------|-----------------------------------|--------------------------------------|
| <b>Appearance:</b>       | Liquid                     | <b>Flammability:</b>              | Not flammable.                       |
| <b>Odour:</b>            | Slight odour.              | <b>Vapour pressure:</b>           | No data available.                   |
| <b>Odour Threshold:</b>  | No data available.         | <b>Vapour density:</b>            | No data available.                   |
| <b>pH:</b>               | 3.0 approx.                | <b>Relative Density:</b>          | No data available.                   |
| <b>Freezing point:</b>   | 0°C approx.                | <b>Solubility:</b>                | Completely soluble in water.         |
| <b>Boiling Point:</b>    | 100°C approx (at 100 kPa). | <b>Partition coefficient:</b>     | No data available (n-octanol/water). |
| <b>Flashpoint:</b>       | No data available.         | <b>Auto-ignition Temperature:</b> | n/a - doesn't burn.                  |
| <b>Evaporation Rate:</b> | Similar to that of water.  | <b>Decomposition Temperature:</b> | No data available.                   |
| <b>Viscosity:</b>        | No data available.         |                                   |                                      |

## Section 10 - Stability / Reactivity

|  |   |
|--|---|
| <b>Reactivity:</b>                         | Stable under normal storage conditions, with decomposition or reaction unlikely.  |
| <b>Chemical Stability:</b>                 | Product is stable at normal ambient temperatures and pressures.   |
| <b>Possibility of Hazardous reactions:</b> | Polymerisation is unlikely to occur.  |
| <b>Conditions to avoid:</b>                | Store in a cool, dry, well-ventilated place in the original container, avoiding excessive heat, direct sunlight, freezing and moisture. |
| <b>Incompatible materials:</b>             | Avoid contact with strong acids, metal hydroxides, reactive metals (tin, zinc, magnesium, aluminium).                                   |
| <b>Hazardous decomposition products:</b>   | Oxides of carbon, oxides of nitrogen.   |

## Section 11 - Toxicological Information

|   |   |
|---|---|
| <b>Acute Toxicity:</b>                  | Calculated using bridging principles.                                 |
| <b>Oral</b>                             | May be harmful if swallowed. LD <sub>50</sub> 4607 mg/kg (Calculated) |
| <b>Dermal</b>                           | Not expected to be a hazard.  |
| <b>Inhalation</b>                       | Not expected to be a hazard.  |
| <b>Skin Corrosion / Irritation:</b>     | Causes severe skin burns and eye damage.                              |
| <b>Serious Eye Damage / Irritation:</b> | Causes serious eye damage.  |
| <b>Respiratory or Skin Sensation:</b>   | May cause allergic skin reaction                                      |
| <b>Germ Cell Mutagenicity:</b>          | Not expected to be a hazard.  |
| <b>Carcinogenicity:</b>                 | No information available.   |
| <b>Reproductive Toxicity:</b>           | Not expected to be a hazard.  |
| <b>Specific Target Organ Toxicity</b>   | Causes damage to liver through repeated exposure                      |
| <b>Aspiration Hazard:</b>               | No information available.   |

## Section 12 - Ecological Information

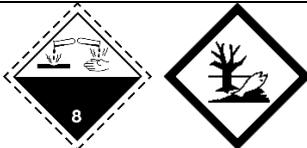

|                                       |   |
|---------------------------------------|---|
| <b>Ecotoxicity:</b>                   | Very toxic to aquatic organisms with long lasting effects |
| <b>Persistence and degradability:</b> | No information available.                                 |
| <b>Bioaccumulative potential:</b>     | No information available.                                 |
| <b>Mobility in Soil:</b>              | No information available.                                 |

## Section 13 - Disposal Considerations

|                          |  |
|--------------------------|--|
| <b>Disposal methods:</b> | The product should be disposed of in accordance with state or local government waste management regulations. The containers themselves should be triple rinsed and recycled wherever possible. |
|--------------------------|--|

## Section 14 - Transport Information

This product is classified as a Dangerous Good for transport. Road and Rail NZ (NZS 5433:2012) Australian Road and Rail (ADG 2018) Transport by Sea (IMDG) and Transport by Air (IATA)

|                             |  |
|-----------------------------|--|
| <b>Pictogram</b>            |  |
| <b>UN Number</b>            | UN 1760  |
| <b>Class</b>                | 8  |
| <b>Packing Group</b>        | II   |
| <b>Proper shipping name</b> | Corrosive liquid, n.o.s. (Benzalkonium Chloride)                                     |

Special provisions: None

Slime Strike

National Poisons Centre (24 hrs) 0800 764 766 NZ  
131 126 AU

|                          |   |
|--------------------------|---|
| Limited quantities:      | 1L  |
| Marine Pollutant:        | NO  |
| Stowage and Segregation: | CORROSIVE: Store away from oxidizing agents, store away from food |
| Hazchem                  | 2R  |

---

## Section 15 – Regulatory Information

Classified under the Group Standard HSR002681 – Water Treatment Chemicals (Corrosive) 2017

|   |               |
|---|---------------|
| <b>Location compliance certification:</b> | 250 L (8.2B)  |
| <b>Tracking:</b>                          | Not required  |
| <b>Certified Handler:</b>                 | Not required  |
| <b>Secondary containment:</b>             | 1000 L (8.2B) |
| <b>Signage:</b>                           | 1000 L (8.2B) |

All materials listed in the AICIS chemical inventory

All materials listed in the NZIoC

---

## Section 16 – Other Information

|                         |                           |
